Access controls worksheet

	Note(s)	Issue(s)	Recommendation(s)
Authorization /authentication	**Objective:** This incident was caused by the user "Legal\Administrator" on 10/03/2023 at 8:29:57 AM. The device used was an "Up2-NoGud" device with the IP address 152.207.255.255.	**Objective:** An analysis of the logs reveals that an employee named Robert Taylor Jr.—whose role is "Contractor – Legal Attorney"—accessed the system at 8:29:57 AM (5 days ago) from the IP address 152.207.255.255. This user holds "admin" level access. The user's authorized period was from 9/4/2019 to 12/27/2019; it has clearly expired, and the account should not be active.	**Objective:** Promptly revoke access for inactive or unauthorized users, assign user permissions based on the principle of least privilege, and conduct periodic reviews of account status and permission assignments.
